

Memory of the World Public Lecture

With Madame Alissandra Cummins, G.C.M, F.M.A
Chairperson, Memory of the World International Advisory Committee, UNESCO
President, International Council of Museums, Paris
Director Barbados Museum and Historical Society

Documentary heritage reflects the diversity of languages, peoples and cultures. It is the mirror of the world and its memory. But this memory is fragile. Every day, irreplaceable parts of this memory disappear forever.

UNESCO's Memory of the World Programme aims to guard against collective amnesia, calling upon the preservation of the valuable archive holdings and library collections all over the world ensuring their wide dissemination.

Join Madame Cummins as she discusses the challenges and opportunities for rethinking movable heritage.
